PROFESSIONAL SUMMARY

Mobile Developer specializing in Flutter and Dart with hands-on experience building cross-platform mobile applications (iOS & Android). Proficient in Firebase services, state management (BLoC, Cubit, Provider), RESTful API integration, and Clean Architecture. Skilled in delivering scalable, user-friendly apps with real-time features. Demonstrates strong ability to multitask across multiple simultaneous projects.

PROFESSIONAL EXPERIENCE

Flutter Mobile Developer — Freelance / Academic Projects

2022 – Present | Beni Suef, Egypt

- Developed and delivered 7+ cross-platform mobile applications using Flutter & Dart for iOS and Android
- Built AI-powered job recruitment platform with real-time chat (SignalR), push notifications (OneSignal), and 10+ screens
- Implemented Clean Architecture and Dependency Injection (GetIt, Injectable) across multiple production-ready apps
- Integrated Firebase Auth, Cloud Firestore, and Cloud Storage with secure session management
- Managed complex app state using BLoC, Cubit, and Provider ensuring predictable and testable transitions
- Demonstrated ability to multitask across simultaneous mobile development projects with clean code delivery

TECHNICAL SKILLS

Mobile Dev	Flutter, Dart — iOS & Android cross-platform mobile applications
State Mgmt	BLoC, Cubit, Provider
Backend & APIs	Firebase (Auth, Firestore, Storage), RESTful APIs, Dio, HTTP, JSON
Architecture	Clean Architecture, OOP, SOLID, Dependency Injection (GetIt, Injectable)
Real-Time	SignalR, OneSignal, Flutter Local Notifications
UI / UX	Animations, Shimmer, Cached Network Image, GoRouter, WebView, Carousel Slider
Tools	Git, GitHub, VS Code
Soft Skills	Multitasking, problem-solving, clean code, self-learning

KEY PROJECTS

Job Matching & AI-Driven Recruitment Platform

Flutter · BLoC · REST API · GoRouter · SignalR · OneSignal

- Cross-platform app (iOS & Android) connecting job seekers with employers via AI-powered matching
 - Real-time chat using SignalR; push notifications via OneSignal and Flutter Local Notifications
 - Clean navigation with GoRouter across 10+ screens; resume upload via File Picker; Dio & HTTP for API calls
- [View on GitHub](#)

E-Commerce Mobile Application

Flutter · BLoC · Dartx · Injectable · GetIt · HTTP

- Full-featured shopping app with product browsing, category filtering, and dynamic cart system
 - Clean Architecture + Dependency Injection; functional error handling with Dartx (Either pattern)
 - Carousel Slider, Staggered Animations, Connectivity Plus, Shared Preferences
- [View on GitHub](#)

News App — Multi-Category News Reader

Flutter · BLoC · HTTP · WebView · Cached Network Image

- Aggregates live news across Sports, Politics, Health, Business, Science, and Environment via REST API
 - In-app article reading via WebView Flutter; external sharing via URL Launcher
- [View on GitHub](#)

To-Do & Task Management App

Flutter · Provider · Firebase · Table Calendar · Flutter Slidable

- Full CRUD with Firebase push notifications, local scheduled reminders, and interactive calendar view
- Swipe-to-delete/complete gestures; multi-language support (Arabic / English)

■ [View on GitHub](#)

Budget & Expense Tracker App

Flutter · BLoC · FL Chart · Percent Indicator · HTTP

- Personal finance tracking with interactive charts, real-time budget progress, and REST API integration
- [View on GitHub](#)

Fruit Market App

Flutter · BLoC · Firebase Auth · Cloud Firestore · Clean Architecture

- Fruit marketplace with secure Firebase Auth login, real-time Firestore sync, and dynamic cart system
- [View on GitHub](#)

Islami App — Islamic Content & Audio Player

Flutter · BLoC · Just Audio · Audio Session · Localization

- Quran browsing, Hadith, Azkar, and Sebha with full audio player and background playback support
- Arabic/English dynamic language switching; Audio Session management for seamless listening
- [View on GitHub](#)

TRAINING & COURSES

Flutter Complete Course

Udemy — Tharwat Samy | 2023–2024

Comprehensive Flutter & Dart development course covering state management, Firebase, REST APIs, and advanced UI.

Clean Architecture in Flutter

Route Training Center | 2024

Hands-on training in Clean Architecture, SOLID principles, Dependency Injection, and real-world project development.

Flutter Full Course

YouTube — Wael Abu Hamza | 2023

In-depth Flutter series covering BLoC, Provider, Firebase integration, and advanced Flutter concepts.

EDUCATION

BSc in Computer Science and Artificial Intelligence

Faculty of Computers and Artificial Intelligence — Beni Suef University | 2022 – 2026

- Relevant coursework: Data Structures, Algorithms, OOP, Software Engineering, AI

LANGUAGES

Arabic: Native **English:** Professional
